## WORK SAMPLE: HOUSE CUP

Intellectual Property & Design by Aeron Ogden, 2024

The Mozart's Gym House Cup is a semester-long team and individual tournament that brings elements of gamification, social camaraderie and competitive motivation to private music lessons. Students are given a weekly score based on the preparation they have completed in their practice at home, and their attention, effort and attitude during the studio lesson. Students can also earn bonus points for participation in various events and competitions.

Each week a leaderboard (example above) is emailed to parents and students and then displayed on multiple large screens at 3 different sport complexes. 2020 was the inaugural year of the House Cup, and each year awards are given to the first-place House and the top 30 students in individual scoring. In 2024, more than 100 students ages Pre-K to College have participated in the House Cup.
